

Sodi RTX.

PROSLIDE PRESTIGE

100% Electric driving experience.

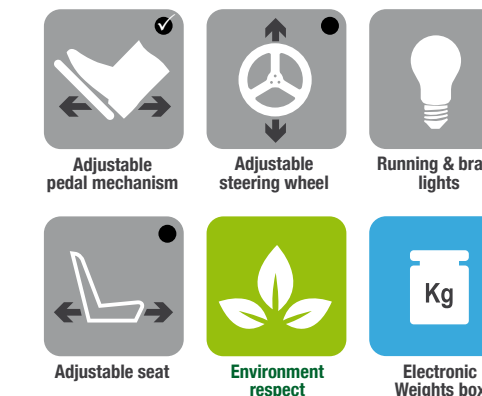

SODIKART has partnered with the specialized electrical industry leaders to develop a new generation of electric rental karts.

Powerful, ergonomic, safe and environmentally friendly, the new RTX has been fully designed using ENGEC electric technology, opening new horizons for the world of karting.

- Reliable, compact and powerful ENGEC electric motor
- Exclusive, lightweight, perfectly balanced symmetrical chassis, built for power
- High efficiency UL rated 480V 3 phase chargers with Advanced HFIGBT technology for best battery life.
- Ultimate ergonomics: Adjustable seat, pedals and bucket seat. The RTX can be used by all your customers (ages 7 and up)
- 100% safe driving: Equipped with «ProSlide» and «HEAD System», RTX provides the highest level of safety and comfort ever attained for rental karts.
